MBA

INTERNATIONAL

2024-25

SPECIALIZATIONS

Many MBA programs offer specializations or concentrations that allow students to focus on specific areas of business such as finance, marketing, entrepreneurship, operations, healthcare management, information technology, or international business. Specializations provide in-depth knowledge and expertise in a particular industry or functional area.

EXPERIENTIAL LEARNING

MBA programs often incorporate experiential learning opportunities such as case studies, simulations, consulting projects, internships, and business competitions. These hands-on experiences allow students to apply theoretical knowledge to real-world business challenges, develop practical skills, and build professional networks.

NETWORKING OPPORTUNITIES

MBA programs provide extensive networking opportunities with classmates, alumni, industry experts, guest speakers, and corporate recruiters. Networking events, workshops, career fairs, and alumni associations help students build valuable professional connections and enhance career prospects.

CAREER DEVELOPMENT

MBA programs often include career development services such as resume workshops, interview preparation, career counseling, job placement assistance, and access to recruitment events. Many MBA graduates pursue leadership roles in corporations, start their own businesses, or transition to new industries or functions.

LEADERSHIP & SOFT SKILLS

MBA programs focus on developing leadership qualities, communication skills, teamwork, negotiation skills, adaptability, and emotional intelligence. These soft skills are essential for effective leadership and career advancement in dynamic business environments.

In brief, an MBA provides a comprehensive education in business management, prepares professionals for leadership roles, expands career opportunities, and equips individuals with the skills and knowledge needed to navigate complex business challenges and drive organizational success.

INTERNATIONAL MBA

With globalization and international business becoming increasingly important, our International MBA programs include global immersion experiences, international study tours, or exchange programs with partner universities. Students gain exposure to diverse cultures, global business practices, and cross-border challenges.

CORE CURRICULUM

MBA programs typically offer a comprehensive curriculum covering core business disciplines such as finance, accounting, marketing, operations management, human resources, strategy, and business ethics. Students gain a deep understanding of business functions and develop analytical, critical thinking, and decision-making skills.

MBA

MASTER OF BUSINESS ADMINISTRATION

FEES STRUCTURE 2024-25

Master of Business Administration (MBA) is a postgraduate degree that focuses on various aspects of business management and administration. It is one of the most popular and prestigious qualifications globally, sought after by professionals looking to advance their careers in management, entrepreneurship, or leadership roles.

COURSE	PARTICULARS	FIRST YEAR	SECOND YEAR	TOTAL FEE

MCA

MASTER IN COMPUTER APPLICATIONS

**ADMISSION
2024-25**

WHY MCA?

A Master of Computer Applications (MCA) is a postgraduate degree program that focuses on advanced topics in computer science, software development, information technology, and related fields. It is designed to provide students with a deep understanding of computer systems, programming languages, software development methodologies, database management, networking, and other key areas of IT.

SPECIALIZATIONS / ADDONS

MCA programs offer specializations or elective courses that allow students to focus on specific areas of computer science and IT, such as:

- ARTIFICIAL INTELLIGENCE & INTERNET OF THINGS (AI & IOT)
- CYBER FORENSIC & ETHICAL HACKING
- DATA ANALYTICS & MECHINE LEARNING
- CYBERSECURITY
- MOBILE COMPUTING
- CLOUD COMPUTING
- SOFTWARE TESTING
- MULTIMEDIA SYSTEM

CORE CURRICULUM

MCA programs typically offer a comprehensive curriculum covering core subjects such as programming languages (Java, C++, Python, etc.), data structures, algorithms, software engineering principles, computer architecture, operating systems, database management systems, web technologies, and computer networks.

INTERNATIONAL MCA

International MCA typically refers to Master of Computer Applications (MCA) programs that have an international or global focus. These programs are designed to provide students with a broad understanding of computer science, software development, information technology (IT), and related areas with a global perspective. International MCA includes international study tours or exchange programs

INDUSTRY RELEVANT SKILLS

MCA programs focus on developing industry-relevant skills such as programming, coding, debugging, software testing, software documentation, version control, software deployment, and project management. Students learn to develop software applications, websites, mobile apps, and enterprise solutions.

MCA

ADMISSION 2024-25

FEES STRUCTURE

COURSE	PARTICULARS	FIRST YEAR	SECOND YEAR	TOTAL FEE
MCA	ADMISSION FEE	50,000.00	0.00	
	PROGRAM FEE	1,75,000.00	1,25,000.00	
	TOTAL FEE	2,25,000.00	1,25,000.00	3,50,000.00
MCA INTERNATIONAL				4,25,000.00

NON-KARNATAKA FEE STRUCTURE FOR THE ACADEMIC YEAR 2024-25

EMERGING TECHNOLOGIES

With the rapid advancements in technology, MCA programs often include courses or workshops on emerging technologies such as artificial intelligence, machine learning, Cloud technology, blockchain, Internet of Things (IoT), big data analytics, virtual reality (VR), and cybersecurity. Students stay updated with the latest trends and innovations in the IT industry.

CAREER OPPORTUNITIES

A Master of Computer Applications (MCA) is a postgraduate degree program that focuses on advanced topics in computer science, software development, information technology, and related fields. It is designed to provide students with a deep understanding of computer systems, programming languages, software development methodologies, database management, networking, and other key areas of IT.

Overall, an MCA program provides a solid foundation in computer science, software development, and IT management, prepares students for diverse IT careers, and equips them with the skills, knowledge, and experience needed to succeed in the dynamic and competitive IT industry.

PRACTICAL PROJECTS

MCA students are typically required to complete a final project or thesis where they apply their knowledge and skills to solve real-world problems or develop innovative solutions. Projects may involve software development, database design, system integration, web development, or research in a specialized area.

PROFESSIONAL DEVELOPMENT

MCA programs typically offer a comprehensive curriculum covering core subjects such as programming languages (Java, C++, Python, etc.), data structures, algorithms, software engineering principles, computer architecture, operating systems, database management systems, web technologies, and computer networks.
