CHAIRMAN'S MESSAGE

Greetings from the United International Educational Institutions (UIEI) group and United International Degree College in particular!

Two decades ago my vision to start an educational institution was born, and right from the inception of United International School, our institution has grown manifold, becoming a symbol of educational excellence. I am grateful to God for enlarging the boundaries of our institution and accomplishing the next milestone, the United International Degree College (UIDC)!

Education has evolved in India, changing the way students engage with teaching. Teaching styles have also changed significantly over the years, making modern education a dynamic process of learning & teaching, enabling students to learn and apply at the same time.

At UIDC, we offer multi-disciplinary courses and a plethora of activities for all-round development of young individuals. Every student at UIDC will enjoy state-of-the art infrastructure, cohesive academic programs, a conducive environment, contemporary classrooms, exceptionally competent faculty and robust cultural activities and sports.

Being a part of United International Degree College is the best decision you will make, as you take the next step towards fulfilling your dreams!

God bless you!

John Peter Kirubakaran

PRICIPAL'S MESSAGE

Welcome to United International Business School!

At UIDC we commit ourselves to igniting the thirst for wisdom and knowledge in our students. Our motto is IN PURSUIT OF EXCELLENCE. We have built the institution on strong pillars of EVOLVE, DEVELOP, PROGRESS and TRANSFORM. We ensure personalized attention to draw out the innate potential in our students. The institution facilitates quality learning by providing world-class amenities and highly qualified faculty.

We provide ample opportunities to the students for the development of an integrated personality. The culture of lifelong learning, facing challenges with determination, ability to take decisions independently, innovation, and unlocking the mind for quick adaptability, is imbibed through curricular and extracurricular interactions.

We take pride in envisioning ourselves as a premier, dynamic and progressive institution offering multidisciplinary undergraduate courses in Science, Commerce, Business Management, Computer Application and Humanities. The conducive learning environment makes the journey a pleasurable experience for all learners.

Through international exchange programs, UIDC also provides global exposure to our students. The institution hosts various value-based skill development programs, to give our students a competitive edge in the corporate world.

We look forward to welcoming your child into our college, and solicit your continued support towards fulfilling our vision of providing world class and holistic education.

Dr. Roopa Koneri

PRINCIPAL, UIDC

- Seminar Halls with the latest acoustics for academic sessions
- State-of-the-art classrooms
- Library with expanded collections
- Information Technology support
- Well-equipped Language, Computer, Psychology and Business Labs
- Sports complex
- Cafeteria

MBA»

MASTER OF BUSINESS ADMINISTRATION

Course Details

Master of Business Administration (MBA) is a postgraduate degree that focuses on various aspects of business management and administration. It is one of the most popular and prestigious qualifications globally, sought after by professionals looking to advance their careers in management, entrepreneurship, or leadership roles.

Core Curriculum

MBA programs typically offer a comprehensive curriculum covering core business disciplines such as finance, accounting, marketing, operations management, human resources, strategy, and business ethics. Students gain a deep understanding of business functions and develop analytical, critical thinking, and decision-making skills.

Overall, an MBA provides a comprehensive education in business management, prepares professionals for leadership roles, expands career opportunities, and equips individuals with the skills and knowledge needed to navigate complex business challenges and drive organizational success.

ADD ON PROGRAMS

Digital Marketing Certification

Relevant for MBA graduates pursuing marketing roles, covering digital marketing strategies, SEO, SEM, content marketing, and analytics.

Data Science & Business Analytics Certification

Relevant for MBA graduates pursuing marketing roles, covering digital marketing strategies, SEO, SEM, content marketing, and analytics.

MCA»

MASTER IN COMPUTER APPLICATIONS

Course Details

Master of Computer Applications (MCA) is a postgraduate degree program that focuses on advanced topics in computer science, software development, information technology, and related fields. It is designed to provide students with a deep understanding of computer systems, programming languages, software development methodologies, database management, networking, and other key areas of IT.

Core Curriculum

MCA programs typically offer a comprehensive curriculum covering core subjects such as programming languages (Java, C++, Python, etc.), data structures, algorithms, software engineering principles, computer architecture, operating systems, database management systems, web technologies, and computer networks.

Overall, an MCA program provides a solid foundation in computer science, software development, and IT management, prepares students for diverse IT careers, and equips them with the skills, knowledge, and experience needed to succeed in the dynamic and competitive IT industry.

ADD ON PROGRAMS

Certified Ethical Hacker

Suitable for those interested in cybersecurity, penetration testing, ethical hacking techniques, and security assessments.

Certified Big Data Professional

Beneficial for MCA graduates focusing on big data analytics, Hadoop ecosystem, data processing, and data visualization.

Certified Software Quality Analyst

Suitable for those interested in software testing, quality assurance processes, test automation, and software quality management.

Machine Learning & Artificial Intelligence Certifications

Beneficial for MCA graduates focusing on machine learning, AI algorithms, data science, and AI-driven applications.

AI with PYTHON

AI (Artificial Intelligence) with Python refers to using the Python programming language to develop AI applications, machine learning models, deep learning algorithms, natural language processing (NLP) systems, and other AI-related projects. Python is widely used in the AI and machine learning community due to its simplicity, readability, versatility, and rich ecosystem of libraries and frameworks.

BBA»

BACHELOR OF BUSINESS ADMINISTRATION

Course Details

Bachelor of Business Administration (BBA) is an undergraduate degree program that focuses on various aspects of business management, administration, and entrepreneurship. It is designed to provide students with a strong foundation in business principles, leadership skills, and practical knowledge needed for a successful career in the business world.

Core Curriculum

BBA programs typically cover core business disciplines such as accounting, finance, marketing, management, economics, business law, organizational behavior, and strategic management. Students gain a broad understanding of business functions and develop analytical, problem-solving, and decision-making skills.

Overall, a BBA program provides a comprehensive education in business management, prepares students for entry-level management roles, fosters entrepreneurial mindset, and equips individuals with the skills, knowledge, and networks needed to succeed in the dynamic and competitive business landscape.

ADD ON PROGRAMS

Digital Marketing

With businesses increasingly relying on online platforms, courses in digital marketing, SEO, SEM, social media marketing, and analytics are highly sought after.

Data Analytics

Courses in data analysis, data visualization, business intelligence, and predictive analytics are valuable for understanding and leveraging data-driven decision-making.

Business Analytics

Certification in business analytics is a credential that validates an individual's skills and expertise in using data analysis techniques, statistical methods, and analytical tools to derive insights and make data-driven decisions in business contexts.

Logistics, Port & Supply Chain Management:

With global supply chains becoming more complex, courses in supply chain management, logistics, inventory management, and procurement are in demand.

BCA»

BACHELOR OF COMPUTER APPLICATIONS

Course Details

Bachelor of Computer Applications (BCA) is an undergraduate degree program that focuses on computer science, software development, programming languages, and information technology.

Core Curriculum

Overall, a BCA program provides a solid foundation in computer science, software development, and information technology, prepares students for entry-level IT roles, and equips them with the skills, knowledge, and experience needed to succeed in the dynamic and competitive IT industry.

ADD ON PROGRAMS

Data Science & Analytics

With the rise of big data, courses in data science, machine learning, and data analytics are highly sought after.

Blockchain Technology

As blockchain gains prominence beyond cryptocurrency, courses in blockchain development and applications are becoming popular.

Business Analytics

Courses that blend business management with analytics skills are beneficial for roles in business intelligence and decision-making.

Cybersecurity

As digital threats increase, cybersecurity courses covering topics like network security, ethical hacking, and cybersecurity management are popular.

Mobile App Development

With the surge in mobile usage, courses in Android and iOS app development are valuable for BCA graduates.

Artificial Intelligence & Internet of Things (AI & IoT)

Courses focusing on AI, IoT, robotics, and automation are gaining traction as industries adopt smart technologies.

Digital Marketing

Courses covering digital marketing strategies, SEO, SEM, social media marketing, and analytics are relevant for careers in marketing and advertising.

B.COM»

BACHELOR OF COMMERCE

Course Details

Bachelor of Commerce (B.Com) is an undergraduate degree program that focuses on various aspects of business, commerce, economics, finance, accounting, management, and related fields. It is designed to provide students with a strong foundation in business principles, analytical skills, and practical knowledge needed for a career in the business world. Here are key aspects of a B.Com program:

Course Details

B.Com programs typically cover core subjects such as accounting, finance, marketing, management, economics, business law, taxation, business communication, statistics, and business ethics. Students gain a broad understanding of business functions and develop quantitative, analytical, and problem-solving skills.

Overall, a B.Com program provides a comprehensive education in business management, economics, finance, and related fields, prepares students for entry-level business roles, and equips them with the skills, knowledge, and experience needed to succeed in the dynamic and competitive business environment.

ADD ON PROGRAMS

Data Science & Analytics

Courses in data analysis, data visualization, business analytics, and data-driven decision-making are in demand as businesses leverage data for strategic insights.

Digital Marketing

With the shift towards online marketing, courses in digital marketing, SEO, SEM, social media marketing, and analytics are beneficial for marketing professionals.

Banking & Insurance

Courses covering banking operations, risk management, insurance products, financial planning, and investment management are relevant for careers in banking and insurance sectors.

Supply Chain Management

Courses in supply chain management, logistics, inventory management, procurement, and operations management are valuable for roles in supply chain and operations.

Equity & Commodity Trading & Mutual Fund Management

Provides advanced knowledge about Equity & Commodity Trading, mutual fund operations, investment strategies, regulatory compliance, and industry trends.

Certified Management Accountant (CMA)

Focuses on management accounting, financial management, strategic planning, and performance management.

Chartered Insurance Professional

Provides a comprehensive understanding of insurance principles, risk management, underwriting, claims management, and insurance products.

Association of Chartered Certified Accountants (ACCA)

ACCA is a professional qualification that is highly regarded in the accounting and finance industry worldwide. It is designed to provide individuals with the knowledge, skills, and competencies needed to excel in accounting and related fields. ACCA is recognized and respected in over 180 countries, making it a valuable credential for international career opportunities.

STUDENT LIFE AT UIDC

Beyond academics, college offers a plethora of extracurricular activities to enrich students' lives. From sports teams and clubs to cultural organizations and volunteer opportunities, there's something for everyone. Engaging in extracurricular activities allows students to pursue their passions, develop leadership skills, and build lasting friendships with like-minded individuals. Some of the active clubs in our campus are:

COMMERCE CLUB

A student in a white shirt is presenting a commerce project on a whiteboard. The whiteboard is filled with colorful diagrams, charts, and text related to commerce, including words like 'IDEAS', 'ACTION', 'COMMERCE', and 'TEAMWORK'. Other students are seated around the table, listening attentively.

ECO CLUB

A group of hands of various skin tones are holding a small globe of the Earth. The globe is surrounded by green leaves and small plants, symbolizing environmental care and sustainability.

ENGLISH CLUB

A student in a pink shirt is presenting in front of a whiteboard. The whiteboard has handwritten notes and diagrams, including the words 'Planner of words', 'verbs', 'adjectives', 'nouns', 'pronouns', 'prepositions', 'conjunctions', 'interjections', and 'articles'. A tablet is visible in the foreground, showing the presentation.

CULTURAL CLUB

A band of four students is performing music. They are playing guitars and a bass guitar. They are dressed in casual attire and are performing on a stage with a red carpet.

KANNADA CLUB

A flag of Karnataka, featuring a yellow top half and a red bottom half, is flying on a pole. In the background, a large, ornate building with a golden dome is visible under a cloudy sky.

HINDI CLUB

IT CLUB

MEDIA CLUB

MUSIC CLUB

ENTREPRENEURSHIP CLUB
